Department of Education Discretionary Appropriations total	68,345,322	77,469,376	68,425,775	The table accompanying the House bill does not allow for a total on a comparable basis.

ⁱ The Senate bill includes \$30 million for a new competitive grant program for literacy, of which \$15 million is for school libraries

ⁱⁱ Includes a 1% set-aside for a national competitive grant program for educator professional development

ⁱⁱⁱ Includes a 5% set-aside for a national competitive grant program for educator professional development

^{iv} The President's budget proposed to eliminate the "summer Pell" (which was eliminated in the FY 11 Continuing Resolution) and the in-school interest exemption for graduate students (which was eliminated in the Budget Control ACT) and use those savings, along with other savings from a restructuring of the Perkins loan program toward maintaining the \$5,550 maximum Pell grant

^v The Senate bill eliminated the in-school interest exemption for the six-month grace period and uses those savings for mandatory funding for Pell to maintain the \$5,550 maximum award

^{vi} The Department of Education now estimates that the total Pell funding provided in the Senate bill (discretionary plus mandatory) will exceed the updated projected cost of the Pell grant program in FY 12 by \$1.6 billion.

^{vii} The House bill makes numerous changes to the Higher Education Act that reduce eligibility for Pell grants including:

- Eliminating eligibility for less-than half-time students
- Restricting eligibility to receive a minimum Pell grant

-
- Lowering the period of time for total Pell eligibility from 18 semesters to 12 semesters
 - Changing the income protection allowances
 - Lowering the family income that results in an automatic Zero Expected Family Contribution
 - Changing the definition of untaxed income
 - Eliminating students who are not high school graduates from receiving a Pell grant.
